ABOUT ME

Research-oriented Data Scientist with a strong foundation in AI, ML, NLP, and automation, working across video, image, and text data. Experienced in developing deep learning and machine learning models using custom datasets for real-world applications such as image classification, sentiment analysis, and cyberbullying detection. Skilled in building intelligent AI agents, chatbots, calling systems, and workflow automation. Proficient in Python, C++, Flask, and Laravel. Passionate about creating impactful AI systems and mentoring future tech talents.

EDUCATIONAL

2021 - 2025

BACHELOR OF SCIENCE IN COMPUTER SCIENCE & ENGINEERING

Bangladesh University of Business and Technology (BUBT)
CGPA: 3.92 / 4.00

2018 - 2020

HIGHER SECONDARY CERTIFICATE (HSC)

Government Science College
GPA: 5.00 / 5.00

2017 - 2018

SECONDARY SCHOOL CERTIFICATE (SSC)

Shaheed Police Smrity College
GPA: 5.00 / 5.00

WORK EXPERIENCE

Oct, 2024 - Dec, 2025

TEACHING ASSISTANT (TA), BUBT

Bangladesh University of Business and Technology (BUBT)
Delivered lectures and practical sessions in:

- Object-Oriented Programming (OOP) in C++
- Advanced Programming in Java
- Machine Learning (ML)

Feb, 2025 - Present

FULL STACK DEVELOPER | AI AUTOMATION ENGINEER

Abedin Tech LLC

- Build and maintain full-stack web applications.
- Develop Python APIs, scripts, and backend services.
- Create AI automations, AI agents, chatbots, and calling systems.
- Implement workflow automation using n8n, Zapier, and Make.

TECHNICAL PROFICIENCIES

- **Programming Languages:** C, C++, Java (OOP), Python (Advanced), PHP
- **Web Technologies:** HTML5, CSS3, JS, Laravel, Python Flask
- **Databases:** MySQL, MongoDB, Firebase
- **Tools:** Git, Google Colab, Jupyter Notebook, Kaggle, VS Code
- **Model Development:** Dataset Preparation, EDA, Data Preprocessing, Model Training.
- **Python libraries:** TensorFlow, Keras, PyTorch, Scikit-learn, OpenCV, Hugging Face Transformers, NLTK, spaCy, Pandas, NumPy, MoviePy, LangChain, pdfplumber, pypdf, SentenceTransformers, FAISS, ChromaDB
- **AI & Automation:** AI Agents, AI Chatbots, AI Calling Systems, Workflow Automation (n8n, Zapier, Make), API Automation

PERSONAL PROJECTS

Animal Image Classification Using CNN with Website *(project link)*

Developed a Convolutional Neural Network using a custom animal dataset and deployed it via a real-time web app using Python Flask. Achieved 99% accuracy using a self-built dataset of 30 animal classes. Deployed via Python Flask web app.

Bangla Sign Language Sentiment Analysis *(project link)*

Built a hybrid model combining CNN and NLP techniques to analyze sentiments in Bangla sign language text; used a self-created dataset.

Rag Multilingual Bangla AI with Realtime Website *(project link)*

Built Bengali Q&A RAG system using NLP, vector search, and LLM with 95%+ accuracy on semantic queries. Designed ML pipeline with multilingual embeddings, FAISS database, and Flask API serving real-time responses.

LLM-Based Career Guidance System with an Interactive Web Interface *(project link)*

Built a career assistant web app using Groq LLM with features like a career-focused chatbot, resume evaluation with improvement tips, AI-generated interview questions from PDFs, and a smart resume builder to help users create professional resumes easily.

AWARDS & ACHIEVEMENTS

ITEE (Octobor 2024)	Ranked 30th in Bangladesh in the Information Technology Engineers Examination (ITEE) conducted by IPA, Japan, among approximately 600,000 applicants annually.
Programming Contest	Achieved 5th Place in the Senior Division of the Intra-University Competitive Programming Contest at BUBT.

CERTIFICATIONS

- Fullstack Laravel Developer – InteractiveCares
- Software Quality Controller – FastFlowUp
- Natural Language Processing – Innovative Skills BD Ltd.
